

```

async fn work(msg):
    print(msg)

async fn repeat(msg):
    await work(msg)
    await work(msg)

async fn main():
    a = spawn repeat("A")
    b = spawn repeat("B")
    print("C")
    await a
    await b
  
```

Static

```

a = repeat("A")
| work("A")
| | print("A")      A
| await work("A")
b = repeat("B")
| work("B")
| | print("B")      B
| await work("B")
print("C")      C
await a
| work("A")
| | print("A")      A
await b
| work("B")
| | print("B")      B
  
```

Dynamic

```

a = repeat("A")
| work("A")
| | print("A")      A
| await work("A")
work("A")
| | print("A")      A
b = repeat("B")
work("B")
| | print("B")      B
await work("B")
work("B")
| | print("B")      B
await work("B")
print("C")      C
await a
await b
  
```
